

Governance frameworks and Decision-Support Tools

Isabel Moreira da Silva, Project Manager

Information Session Call 4
Online, 22.09.2026

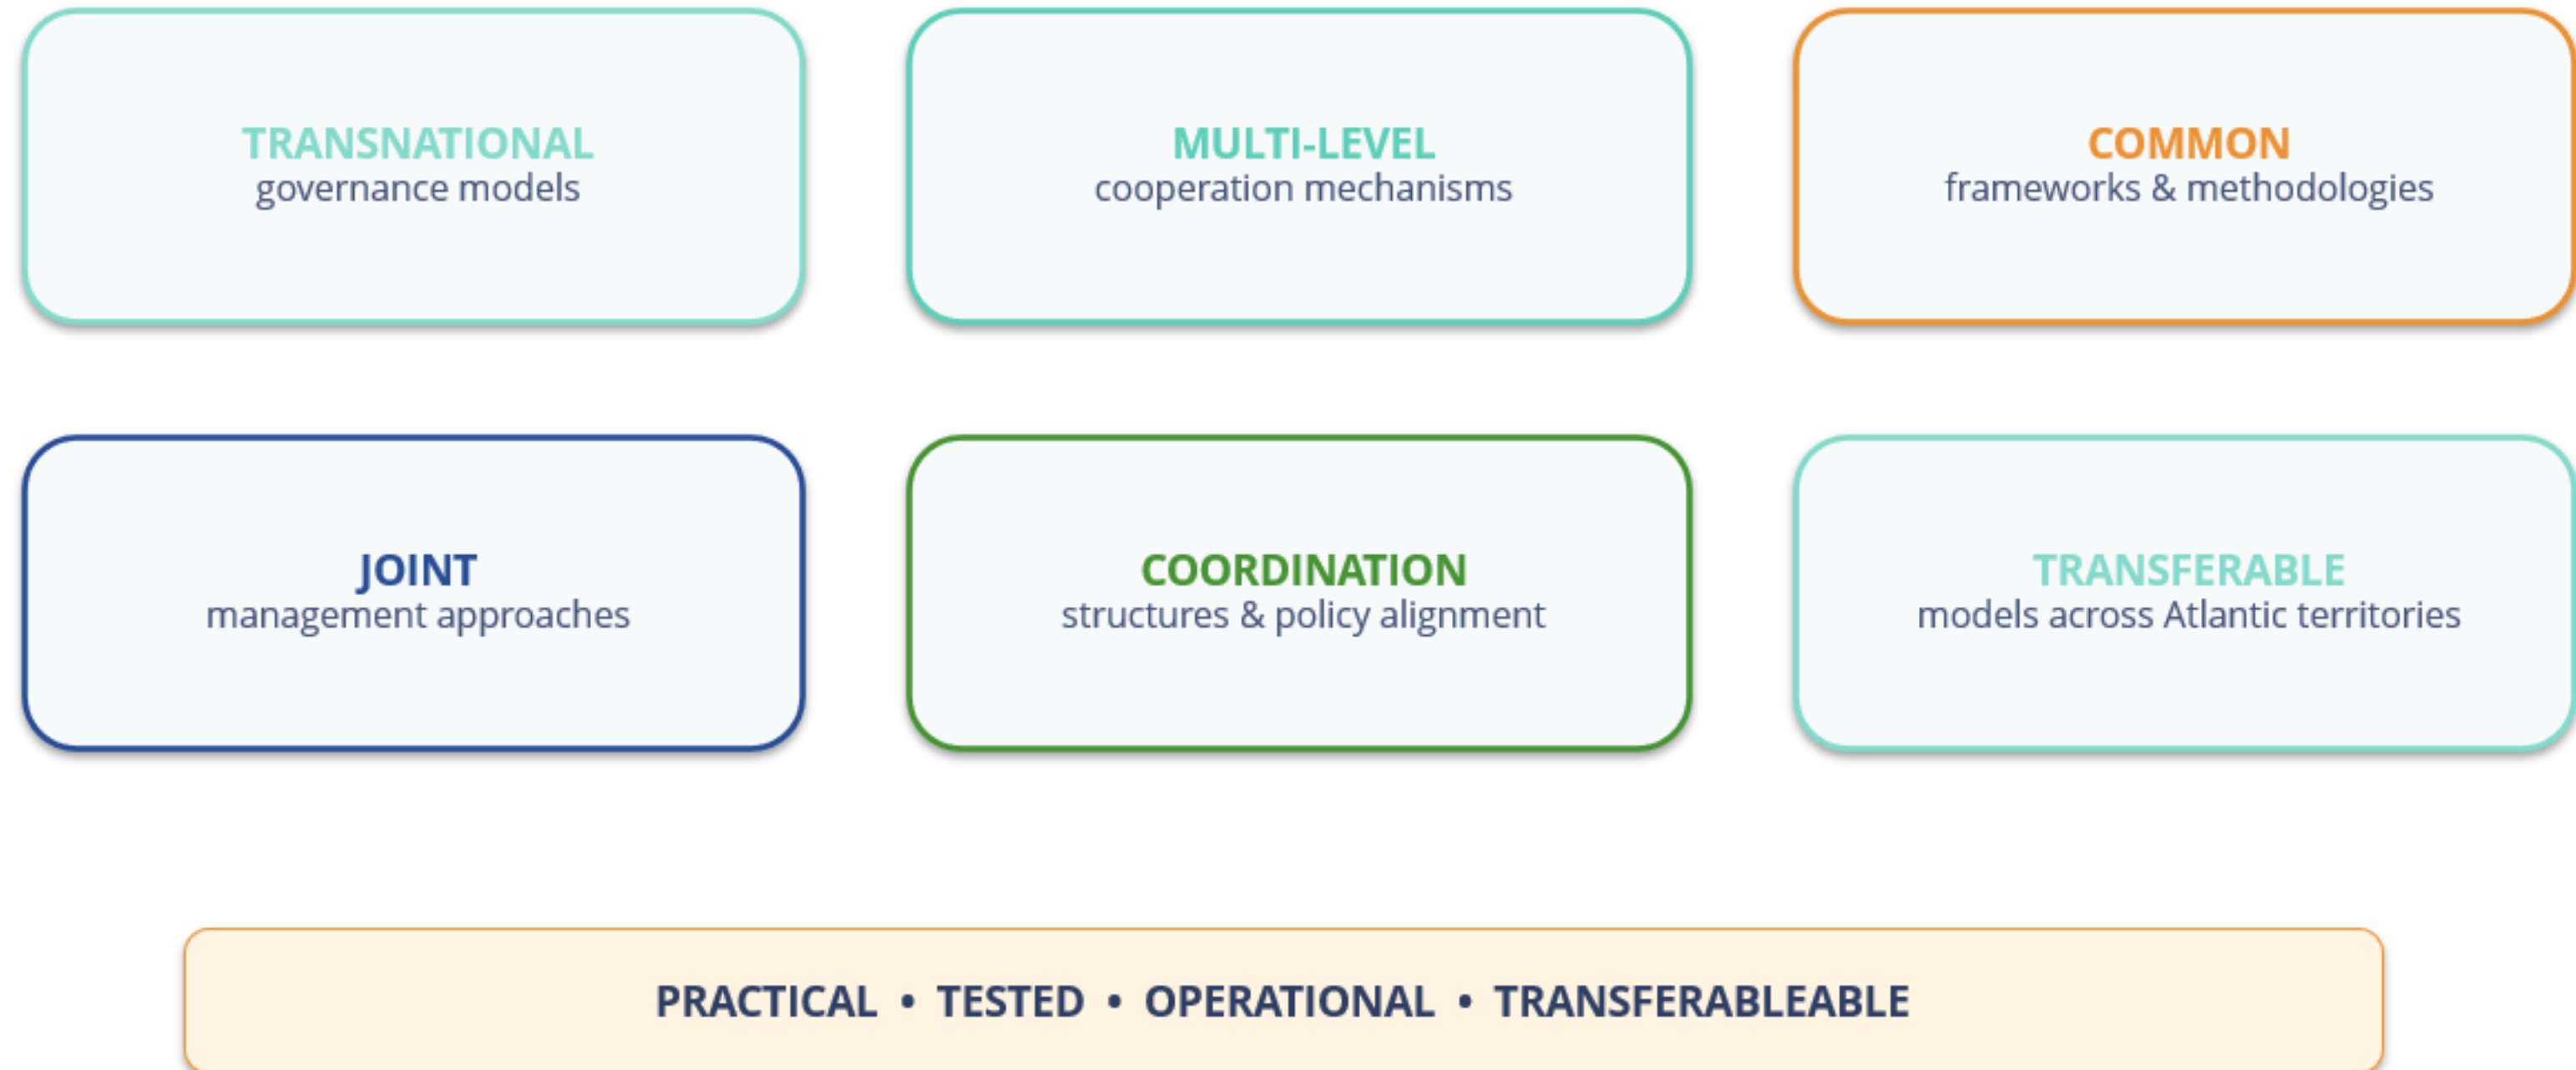

Why governance matters in the Atlantic Area

Atlantic challenges do not stop at borders, and neither can the response

From governance challenges to operational framework

The Fourth Call can support practical mechanisms for cooperation

Governance must work in practice

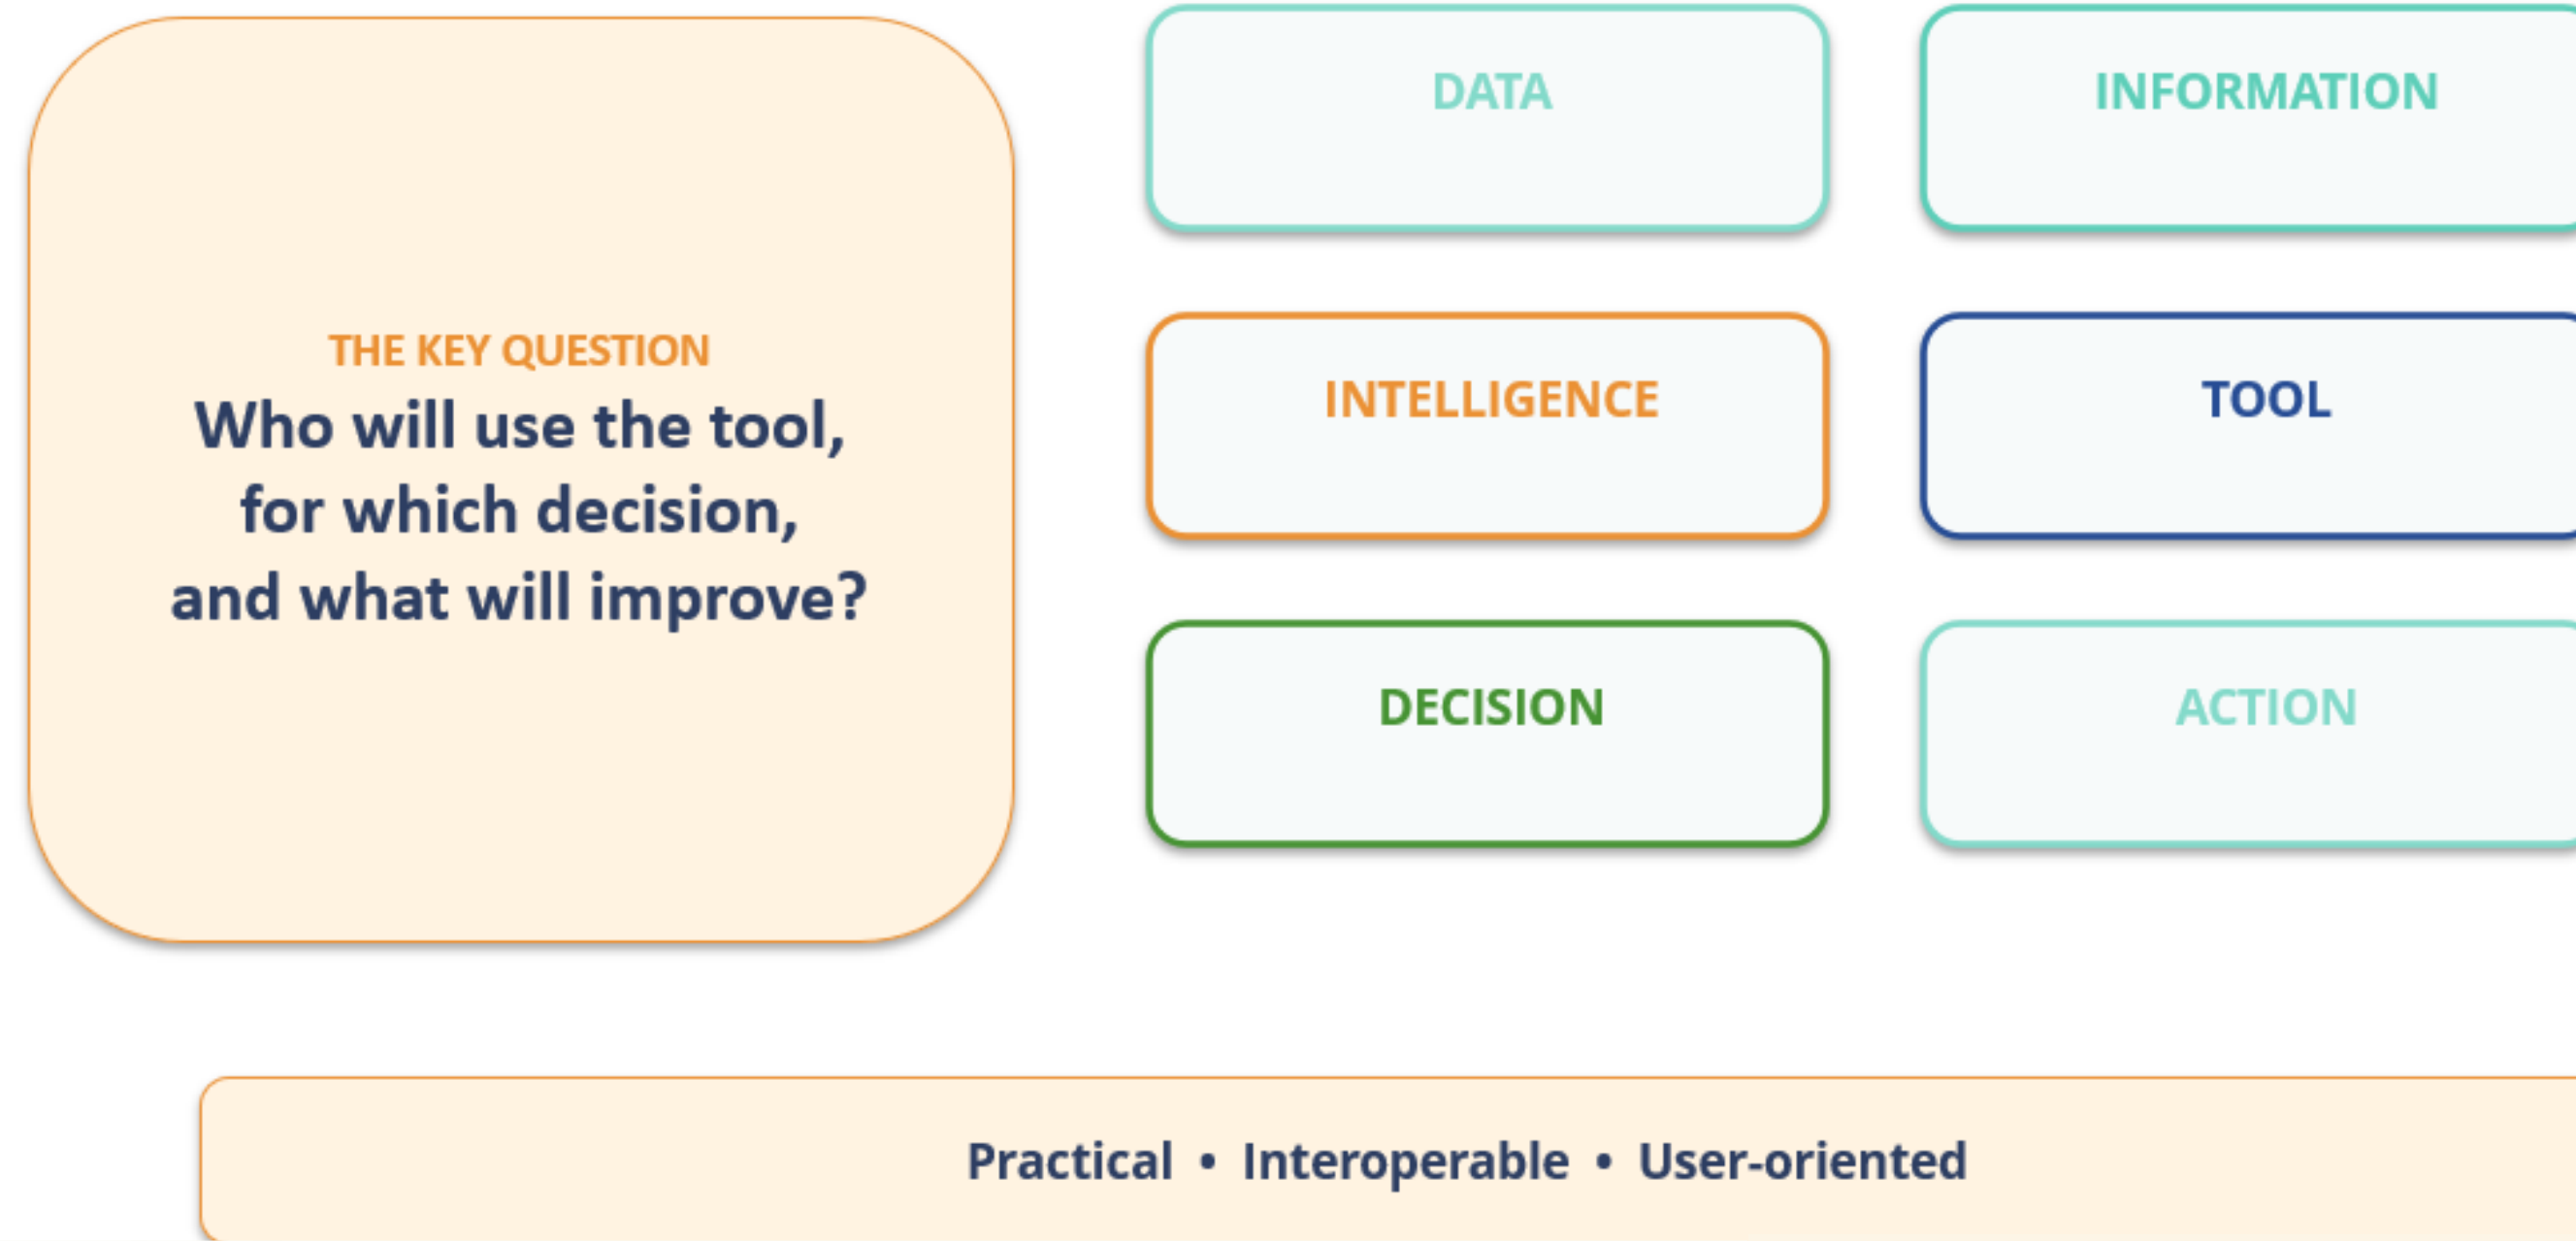

From identifying governance gaps to embedding new ways of working

FROM GOVERNANCE ANALYSIS TO GOVERNANCE IN ACTION

Decision-support tools: from data to action

Technology is the means. Better decisions are the objective

When governance meets technology

Practical example: large-scale algae accumulation on European coastal areas

**ONE PHENOMENON.
SEVERAL TERRITORIES.
A SHARED RESPONSE.**

MONITOR

Satellite & environmental data

PREDICT

Currents & predictive models

SHARE

Information across authorities

ACT

Coordinated management

DATA SUPPORTS DECISIONS • GOVERNANCE MAKES JOINT ACTION POSSIBLE

What should a strong project demonstrate?

Six practical questions for applicants

- 01 Address a shared governance challenge
- 02 Identify the users
- 03 Test it in real settings
- 04 Define roles and responsibilities
- 05 Support a concrete decision
- 06 Ensure transferability across territories

Governance + real users + evidence + transferability

What could these projects look like?

The Fourth Call can support practical mechanisms for cooperation

4.3

GOVERNANCE FRAMEWORKS

- Transnational governance models
- Multi-level cooperation mechanisms
- Joint management approaches
- Coordination frameworks

4.4

DECISION-SUPPORT TOOLS

- Development & adaptation of tools
- Data integration & interoperability
- AI & advanced analytics
- Risk management & safety systems

Two complementary routes: stronger cooperation and better evidence-based decisions

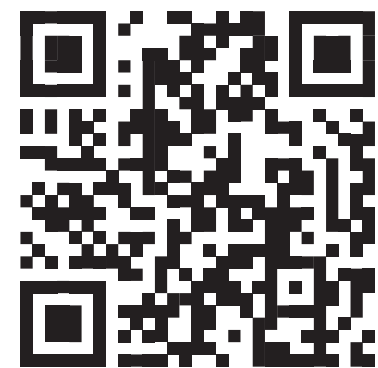

From cooperation and evidence to better action

Governance frameworks and decision-support tools can reinforce each other

Better cooperation. Better decisions. Stronger Atlantic territories.
