#### Purpose of the Control, Responsibilities, Legal Basis and Methodology

#### Purpose of the control report and addresses

We performed a verification of the above-mentioned report. We prepared this independent control report in order to provide the project partner with information on the control work carried out by us, the errors detected, the conclusions drawn and the recommendations and follow-up measures identified.

This control report refers solely to the partner report identified above and does not constitute a confirmation of the controlled entity's other statements and accounts.

This control report is primarily for the attention of the controlled lead partner/project partner.

It will furthermore be made available to the managing authority, the joint secretariat, as well as authorised third parties such as the accounting body, the audit authority and the European Commission, upon request.

#### Responsibility of the project partner (PP)

The lead partner/project partner is responsible for the preparation of the partner report in accordance with the reporting provisions outlined in the subsidy contract and the respective programme documents.

The lead partner/project partner is furthermore responsible for executing internal control to enable the preparation of partner reports that are free from material misstatement, including those due to fraud or error.

#### Responsibility of the lead partner (LP)

The responsibilities of the lead partner are outlined in Article 26 of Reg. (EU) No 2021/1059<sup>2</sup>.

#### Responsibility of the managing authority (MA)/ joint secretariat (JS)

MA/JS carry out the functions according to Article 46 of the Interreg Regulation and Article 49 of Reg. (EU) No 2021/1060<sup>3</sup>. The MA/JS take the responsibility for monitoring the overall project progress.

#### **Responsibility of Controller**

A controller is responsible for verifying expenditures declared in the partner report based on the verifications carried out according to Article 74 CPR and Article 46(3) of the Interreg Regulation. According to Article 74(2) CPR management verifications

<sup>&</sup>lt;sup>2</sup> Further in the document referred to as Interreg Regulation.

<sup>&</sup>lt;sup>3</sup> Further in the document referred to as CPR.

shall be risk-based and proportionate to the risks identified ex-ante and in writing. Please consult the programme's methodology for risk-based management verifications in 2021-2027.

General considerations / eligibility criteria			n.a.	Comments
The partnership agreement is signed by the project partner and the latest version is available				
Costs are correctly recorded in the partner accounting system.				
Costs are directly related to the project and necessary for the development or implementation of the project.				e.g., Verified that:  Costs have been initially planned in the PAF under this cost category OR  Costs are justified in the Report
Costs are correctly allocated to the relevant cost categories.				e.g., Inspected list of expenditures.
Costs are declared only once.				e.g., Inspected the list of expenditures and verified that expenditures had not been declared twice in different cost categories or in previous reporting periods.
(NOT needed for flat rates, lump sums, depreciation): [according to Articles 63(2), Article 67(2) CPR, Art 74 1a(i) CPR] Expenditure was incurred and paid in the project eligibility period and supported by the proof of payment.				e.g., Implementation expenditure is incurred and paid within the date of approval of the project by the Monitoring Committee (MC) and the end of the relevant reporting period.
(NOT needed for flat rates, or lump sums):  Expenditure is supported by invoices or documents of equivalent probative value,				

<sup>&</sup>lt;sup>4</sup> In accordance with Article 7.1 of Regulation 651/2014, on exemption from State aid notifications, in beneficiaries where the aid is considered State aid, VAT is deducted if it is recoverable under national law.

	Ineligible costs according to the Regulations and programme rules are excluded from the Report					e.g., Article 64 CPR
VAT for projects where total costs equal to/ over 5 million Euro (incl. VAT) is deducted if recoverable under national legislation					e.g., Article 64 1(c) CPR.  In accordance with Article 7.1 of Regulation 651/2014, on exemption from State aid notifications, in beneficiaries where the aid is considered State aid, VAT is deducted if it is recoverable under national law.	
The co-financed products and services were delivered, or delivery is in progress.					e.g., Inspected project evidence provided with the partner report, in particular agendas and signed attendance lists of meetings, written outputs, pictures, etc.; OR performed own research, in particular search on the internet, OR obtained external confirmation of the project's existence, or 'Inspected the project partner and activities on the spot.	
The total partner budget, and budget per cost category were respected.						e.g., Verified that accumulated partner expenditure is within the partner budget of the latest version of the approved PAF and allowed in SIGI
If the partner contribution does not come from the partner's own resources but from an external public source, the total public contribution has not been exceeded.						
In accordance with Article 65 of the CDR, in the event that the expenditure is related to infrastructure or productive investments, compliance with durability obligations is evidenced by supporting documents.						
In accordance with Article 22.3.f of the Interreg Regulation, for infrastructure investments with an expected useful life of at least five years, an assessment of the expected effects of climate change is supported by supporting documents.						e.g., the project/site manager, or equivalent, certifies that vulnerability to potential long-term climate effects has been considered and that the principle of primacy of energy efficiency and consistency with the 2050 climate neutrality target has been ensured.

Criteria – Simplified cost option		Accepted		Comments
[according to Article 39(3)(c) of the Interreg Regulation - flat rate, Article 55(2) CPR - unit costs]]	Yes	Not (fully)	n.a.	
The staff calculation option is in line with programme rules.				e.g., Verified that the flat rate for staff costs is in line with the programme rules and the PAF.
Staff costs are calculated correctly.				e.g., Recalculated simplified staff costs using the calculation scheme. (in the case of up to 20% flat rate): Staff costs calculated on a flat rate basis are 20% of the direct costs other than staff costs of that project partner.
Criteria – Real costs		Accepted		Comments
[according to Article 39 of the Interreg Regulation and Article 55(5) CPR]	Yes	Not (fully)	n.a.	
Persons who declared staff costs are employees of the project partner or work under a contract considered as an employment document.				e.g., Inspected employment/ work contracts and contracts considered as employment contracts of individuals declaring staff costs (part-time and full-time).
A document defining the percentage worked on the project (100% or less) is available (e.g., task assignment letter).				e.g., Inspected agreements of persons declaring staff costs (part-time and full- time).
(in the case of the fixed percentage method) The task assignment document OR other similar documentation defining the tasks and percentage of work on the project per employee exists.				e.g., Task assignment document; employment/ work contracts (with percentage and tasks are part of the contract)
(in the case of the fixed percentage method) The task assignment document OR other similar documentation defining the tasks and percentage of work on the project per employee is up-to-date.				e.g., The correct version (valid from) of the task assignment document is in place.
(in the case of the fixed percentage method)  The fixed percentage worked on the project is plausible in relation to tasks and activities within the project and the job profile of the employee.				

The percentage worked on t correctly applied to calculate staff costs.							
If the staff is involved in several projects, it is ensured that not more than 100% of the time is reported (e.g., task assignment letters for all projects are not for more than 100%).							
Staff costs to which the percentage is applied are limited to salary payments and other costs directly linked to salary payments incurred and paid by the employer for the employee working on the project.					e.g., Inspected, e.g., payrolls/payslips, printout of accounting system, etc. of employees working on the project (part-time and full-time) and verified that staff costs are based on salary payments plus any other costs directly linked to salary payments incurred and paid by the employer such as employment taxes and social security including pensions provided that they are:  • fixed in an employment document or by law;  • (ii) in accordance with the legislation referred to in the employment document and with standard practices in the country and/or organisation where the individual staff member is actually working; and  • (iii) not recoverable by the employer.

## 3. Procurement Checklist

This is a Procurement checklist template for standard projects applying for funds in any Interreg strand (Harmonised Implementation Tool by Interact).

The main objectives of this template are:

- To reflect the work and scope done by controllers regarding the procurement verifications;
- To outline a minimum set of fields and optional fields that programmes can choose. Programmes can also add additional fields and clarifications, if necessary.

#### **Compliance with procurement rules**

Purpose and logic:

- The applicability of the procurement rules depends, among others, on the legal status of the awarding institution;
- For partners not falling under public procurement rules, sections 3.a (contracting amounts below EUR 10.000) and 3.b (contracting amounts above EUR 10,000) will be used;
- For partners falling under public procurement rules, sections 3.a, 3.b and 3.c are used:
  - contracting amounts below EUR 10.000 (excl. VAT unless the threshold set by the applicable national rules is stricter) section 3.a is to be filled once for all the contracts reported in the period.
     3.b. For those beneficiaries not falling under the scope of procurement rules, this section is to be

<sup>&</sup>lt;sup>8</sup> For example, private partners unless explicitly governed by public procurement rules based on national rules.

filled in from EUR 10.000 and above. For those falling under the scope of public procurement rules, this section is to be filled in for amounts between EUR 10.000 and the threshold set by the applicable EU and national rules. For contracting amounts above the threshold set by the applicable EU or national rules, section 3.c must be filled in.

- In cases where public procurement procedures were already checked during previous reporting periods, the national controller is to include a comment accordingly. In the case of a change in the contract, the relevant section must be filled in again.
- Any deductions necessary following infringement of procurement rules are to be reported under the respective cost categories in this checklist.

3.a Contracting amounts below EUR 10.000 (excl. VAT) unless the threshold set by the applicable national rules is stricter (for Spain and Portugal below EUR 5.000 excl. VAT), (applicable to all types of beneficiaries – to be filled in only once for all contracts)
